Hallo, witam, hola!

based in Switzerland I love to spread my artistic wings all over Europe and the world. Passionate I dive in a story and develop hand in hand with the director and the rest of the visual team a individual language for each project.

I learned my way of seeing at the **Polish National Filmschool** in Łódź (PWSFTviT). I work over 15 years as a DoP all over the world. After a break from film business and moving to Switzerland I decided to make another Master degree in cinematography at the **ZHdK**, where I continuously meet inspiring and talented directors. I am always looking to work on exciting stories with great personalities.
